To: Whom It May Concern

I would like to express my wholehearted recommendation for the excellent services of Vink Fran who completely renovated and sold my house for a higher price than I thought was possible during this time of housing market uncertainties.

Vink's attention to every detail was exceptional. He accomplished everything while I was out of town. He overcame every hurdle. His knowledge of the market and his ability to get things done are exceptional. Above all, his professionalism, work ethic and dedication to my interests as his client were superb.

If you want an agent who will work exceptionally hard for you and accomplish wonders, you can't do better than Vink Fran.
